

The Utmost In Footwear of Elegance Bears the Patrician Label

Patrician Shoes are luxuriously dainty. The distinctive touches and little refinements that particular women demand distinguish them as the footwear De Luxe.

Their style superiority is evident at a glance and inside and out they are built in keeping with their looks.

For Fall we are featuring an unusually beautiful array of models in fashion's favorite shades and designs that are exclusive with the manufacturers of Patrician Footwear. The slender, long vamp effects are still the vogue, and these are shown in a wealth of shades and leathers. And there are others—scores of them—dainty, beautiful and new.

The leathers are as varied as the models—black glazed kid-skin, nut brown and black calfskin, colored kidskin of bronze, beaver, brown, Havana brown, field mouse, taupe, neutral gray, white washable kidskin, and white gray and taupe buckskin as well as beautiful two-tone effects and combinations.
